RECEIVER HITCH

**Easy-to-use towbar
release handles**

**Towbar extends 7"
and swings 12"**

**Spring assembly
for cushioned towing
when starting
and stopping**

- Bolt-On Application**..... Mounts easily to your truck frame - designed for full size pickups - all makes, all models
- Swing and Extension** Towbar extends 7" from frame and swings 12" for quick one-person hookups - no need to accurately position your truck / pushing or pulling trailers
- Cushioned Towing**..... Full-cushion springs reduce transmission, differential, brake, suspension, and frame stress, taking the "jerk" out of towing.
- Class 5 Standards** Up to 18,000 lbs. weight carrying and 1,800 lbs. tongue weight (without weight distribution system)
- Universal Uses** Perfect for the boating, RV, ranch, farm, construction, landscaping industries, and more!
